

T4r

RECUMBENT CROSS TRAINER

Transform your life.

The ALL NEW T4r empowers users of virtually all ability levels to engage in exercise.

T4r combines lower and upper body movement for a full body workout, building strength and invigorating users such as those with disabilities, in rehabilitation or desiring health and wellness to get the most out of life.

Safe, smooth, quiet, and easy to use, T4r inspires independence among users and therapists. NuStep's recumbent cross trainers are a leading choice among healthcare and fitness professionals as well as home users. T4r's fresh design and small footprint make it ideal for a professional setting or home use.

Overall Features

The T4r simulates a natural walking motion while eliminating undesirable joint stress and promoting functional fitness.

- Ergonomic body position for comfort
- Total body workout
- Smooth stepping motion
- Fits users from 4'6"- 6'4" (137-193 cm)
- Accommodates users up to 400 lbs. (181 kg)

Drive Train

The self-powered T4r starts easily, operates quietly, and can be used in most locations.

- User controlled step length
- Low inertia startup
- Instant free coasting start and stop action for safety
- Self-powered with no plug-in required
- Quiet belt drive
- Power output range of 5-800 watts

Seat

The comfortable, ergonomically-designed T4r seat swivels 360° to allow for easy on and off access.

- 360° seat swivel with 45° locking intervals
- Padded contoured back provides added support
- Seat adjusts 15" (38 cm) forward and backward
- Wheelchair height
- Flip-up arm supports

Arms

Easy arm adjustments up to 15" (38 cm) to fit your body size and preferred range of motion.

- Sturdy grab ring
